CONFERENCE TOPICS

WHAT THEY DIDN'T TELL YOU IN SEX ED: THE BIOCHEMISTRY OF SEX by Vickie Thorn

This information you have never heard before and is for anybody who lives in a body, e.g., the role of pheromones in attraction, attachment and bonding.

AS THE WORLD TURNED: CHANGES THAT LEFT US WOUNDED by Vickie Thorn

Sociological changes since 1960 have resulted in the spiritual and psychological wounds carried by Gen X and Gen Y. Why? How can we help?

SAVE SEX, NOT SAFE SEX by Anthony Preston

Anthony uses practicality, analogy and humor to present information to the students. He challenges them not to buy the lie of responsibility-free sex that the popular media projects, but to make their own decisions by understanding their self worth, stating "When you know what you're worth, you know you are worth waiting for."

Vickie Thorn

Vicki Thorn is the founder of Project Rachel. With a degree in Psychology and a certificate in Spiritual Direction, she is a bereavement facilitator, a prenatal loss facilitator and trauma counseling. She is an international speaker and author on the topics of abortion's aftermath. Her research on the biochemistry of sex

has been included in recent presentations to high school groups and college students.

Anthony Preston

Actor, model, singer/songwriter, Anthony Preston has appeared in several feature films and such day time dramas as "Days of Our Lives" and "Young and the Restless." Anthony's biggest role to date, however, is that of an abstinence speaker: inspiring, educating, and entertaining high school students across the country. As the Director of SLC, he promotes abstinence education in a package that is real, relatable and relevant to a media driven society.
